

INLAND DRY CARGO VESSEL 135m x 14,20m

With our roots in Werkendam, VEKA is located at the center of developments in the modern inland shipping market. Since 1988 we have gained extensive knowledge in the development and construction of a wide range of inland (multipurpose) cargo- and containerships, providing appropriate solutions for your specific transport demands.

Since VEKA controls the entire building process, we can offer a central point of contact to our clients.

With its generous dimensions, the 135 x 14,20 meter dry cargo vessel is a true tonnage carrier. Ideal for carrying containers and bulk cargos as coal and iron ore.

A-07
